DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 4/30/2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent Application 11/399,566 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Reasons for Allowance

2. The claims of the instant application are allowable for the following reasons: the prior art could not alone or in combination anticipate or make obvious an automated pharmaceutical packaging machine with a plurality of product dispensers which feed a plurality of corresponding funnels, and product package templates, each with cavities therein, that are placed on an x-y mechanical drive table and moved so that the appropriate cavity is under the desired funnel for loading.

The most pertinent prior art, TAKEMASA ET AL discloses an automated pharmaceutical packaging machine in which pharmaceutical products are dispensed from an array of sources to a corresponding funnel and then into a container. However, the container of TAKEMASA ET AL is held and moved manually. Also, the container of TAKEMASA ET AL does not have a plurality of cavities. BOUTHINETTE discloses a packaging kit with product package template cavities, but does not disclose the container being moved automatically on a drive table and moved so that the appropriate cavity is under the desired funnel for loading.

Art Unit: 3721

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
